Instructions for Optional Exam Corrections

- Corrections are due at the beginning of lecture on Thursday, March 30 (no exceptions—we will go through answers to exam in lecture on Thursday).

- Do all corrections on separate sheet(s) of paper and where appropriate show all you work.

- Clearly label the problems.

- You may consult books, notes, etc, but not your fellow classmates or another person (this is still part of you test).

- If you correctly answer the question, you will get ½ points back that you originally lost.

- Be sure to turn in both you exam and your corrections.

- If you have any questions, direct them to Carolyn.

- If you think that a problem was graded incorrectly, include a statement in your corrections about the problem and why you think it was graded incorrectly. If the problem was graded incorrectly, you will get full credit for the problem.
